Important messages Jan 19

- The `-G` flag sets debug lines into your code
  - ❑ This reduces the performance drastically
  - ❑ Remove it for performance tuning!!!
- For large matrices please use
  - ❑ `MFLOPS_MAX_IT=1 ./matmult_f.nvcc ...`
- For benchmarks please use
  - ❑ `MATMULT_COMPARE=0 ./matmult_f.nvcc ...`
- Please download new driver `matmult_f.nvcc2` to help against overload
- Benchmark runs should be submitted (see later)
